Our I<sup>2</sup>C-bus website ([www.nxp.com/interface](http://www.nxp.com/interface)) is a valuable resource for device information and training programs. It gives you direct access to a comprehensive handbook, application notes, information about evaluation kits and training materials, links to application and design support, and more.

The I<sup>2</sup>C Fm+ development board and daughter cards make it easy to program new peripherals and are a quick way to learn about the I<sup>2</sup>C-bus protocol.
