AVNET

From idea to design and from prototype to production, Avnet supports customers at each stage of a product's lifecycle. A comprehensive portfolio of design and supply chain services makes Avnet the go-to guide for innovators who set the pace for technological change. For nearly a century, Avnet has helped its customers and suppliers around the world realize the transformative possibilities of technology. Learn more about Avnet at [avnet.com/apac](https://www.avnet.com/apac).

AT AVNET, WE HELP YOU REACH FURTHER

- Support customers' needs through offices in more than 50 locations in Asia including Japan
- One-stop shop for semiconductors and IP&E components from over 400 franchise line card
- Expedite time-to-market for customers through technical support and design services
- Optimize delivery support through world-class end-to-end supply chain services
- Provide ease of search and purchase through sophisticated eCommerce platform

Our Partners

Avnet distributes in excess of 400 product lines of semiconductors, interconnect, passive and electromechanical (IP&E) components from world's leading electronic component suppliers. Offering one of the most comprehensive line cards in the distribution industry, together with value-added design and supply chain services, Avnet enables a superior one-stop ICT experience and cost-effective solutions to cater to customers' different product needs.
