## NATURE OF BUSINESS

Avnet Abacus distributes electronic components across Europe. We have focus and expertise across a range of industrial applications and a significant engagement with contract manufacturers. We also service many end user markets including industrial automation, lighting, medical, automotive, transportation, military and aerospace. With 44 offices in 20 countries, we offer the personal service and knowledge of a local provider, with all the product choice, financial strength, logistics and fulfillment benefits of a global distributor.

We offer the high levels of product and service expertise through our technical specialist team who will integrate your design brief with our extensive product range from our industry leading line card to create the best fit solution. This team is available for consultation in local language and will ensure that you achieve the most efficient and cost effective solutions. Contact them via our Ask an Expert facility or phone your local sales office.
