

EBV Elektronik Launches Blog to Share Latest Trends, Thoughts and News in the Electronic Industry

Munich/Poing–EBV Elektronik, an Avnet company (NYSE:AVT) and leading specialist in EMEA semiconductor distribution, is launching its own news network the EBVBlog www.ebv.com/blog to share news and stories from EBV as well as covering technology and market trends in the EMEA region.

It gives an insight view of EBV featuring interview, videos, events and exhibition as well as covering technology developments, sciences and physics. Additionally the EBVBlog highlights an Internet of Things and a Vertical Segments area. It links to the EBV Live Wall displaying live all social media feeds of EBV and its suppliers at one glance. The Live Wall streams events etc. in a news ticker style via Twitter and can be reached via www.ebv.com/socialwall.

“We are enthusiastic about electronic components and the embedded design world. We are driven by the visions to connect people, to make life easier, to stop environmental pollution and all the other possibilities the semiconductor branch offers. In our daily lives, we are dedicated to provide our customers with great service”, comments Bernd Schlemmer, VP Communications EBV Elektronik. “In this blog we express our thoughts, talk about trends, EBV happenings and want to share our minds with everyone interested. We love to discuss everything that is connected to technology and we welcome all to join the conversation”, continues Schlemmer.

About EBV Elektronik

EBV Elektronik, an Avnet (NYSE:AVT) company, was founded in 1969 and is the leading specialist in European semiconductor distribution. EBV maintains its successful strategy of personal commitment to customers and excellent services. 230 Technical Sales Specialists provide a strong focus on a selected group of long-term manufacturing partners. 110 continuously trained Application Specialists offer extensive application know-how and design expertise. With the EBVchips Program, EBV, together with its customers, defines and develops new semiconductor products. Targeted customers in selected growth markets will be supported by the Vertical Sales Segments. Warehouse operations, complete logistics solutions and value-added services such as programming, taping & reeling and laser marking are fulfilled by Avnet Logistics, EBV’s logistical backbone and Europe’s largest service centre. EBV operates from 61 offices in 28 countries throughout EMEA (Europe – Middle East – Africa). For more information about EBV Elektronik, please visit www.ebv.com.
