Subject: Status Report of Epson Timing Device Facility in Malaysia

Dear Valued customers,

We would like to appreciate for your continuous support for our timing device products. Our thoughts are always with all the people impacted by COVID-19, especially those whose ones are fighting the illness. This announcement is the update of the status of our Malaysia facility and its potential impact on supply chain.

1. Epson Precision Malaysia Sdn. Bhd. (EPMY) Kuala Lumpur, Malaysia

2. Current status

As of April 23, 2020, the Malaysian government has announced a two-week extension of Movement Control Order (until May 12, 2020). We are going to follow the government policy. With considering the safety and health of employees, we will continue communication with the government and related organizations to expand the operation of the Malaysian plant. As soon as we have the update we will report again.

Sincerely,

Torayuki Yamaya

General Manager
Sales & Marketing Dept,
Seiko Epson Corporation
