Products - Automotive

Together with the leading suppliers, Avnet brings you here the best automotive products for your options.

STMicroelectronics ASM330LHH
Automotive 6-axis inertial module: 3D accelerometer and 3D gyroscope

Microchip INICnet™
technology

Nexperia
LED lighting for automotive

NXP
Matrix headlamp

ON Semiconductor
Silicon photomultiplier sensors

Panasonic
Hybrid capacitor new ZS series

Texas Instruments
DS90C189-Q1

Xilinx
Zynq UltraScale+ MPSoc

Upcoming events

- Avnet Embedded Vision China Conference (Dec.18, Shanghai)
- ON Semiconductor & Avnet IoT Seminar (Dec.19, Taipei)
